Thats because you made the player up to like 2

Or you didnt un-tick dedicated server

Not necesearely. You can play alone by setting the player limit to 1

And the GamePlay pending will always show when there is only 1 player ingame unless you did change the player limit to 1.
Only the gray is a bit weird. Usually it would be blue (or are you playing a dark map??)

Maybe you didnt un-tick the 'dedicated server'
