I can honestly think of a ton of other topics that belong in the HOF more than this.

Maybe if we call Blizzard they'll let us switch over from XWIS to US East and US West realms they use for B.net!

I don't feel that what he's posted constitutes any real grounds for a ban on his IP...

Banning for being a complete retard? Sounds unfair.

On the other hand, I lol'd.

i don't actually think it's that a bad idea, for example cs has cheat fest servers, most cheaters are there   besides if you see someone play there u know he is capable of cheating elsewere

I think it'd be cool to have a hack server, but people would forget to take their hacks out and it would cause problems.

Well he's either a cheater, or a spammer who doesn't think things through; Neither of which I'd like to see in any server.

A server with everyone RGH'ing would be the most boring game ever.

it's full of cheaters, so = less cheaters in other servers. Well i think it depends on a server owner, if he wants a server like that.. and has to do absolutely nothing with TT

I've seen servers like this. What's stopping him from making his own, anyway?

Also, I'm in favor of posting his IP for banning.

I doubt that. Most cheaters are in it to fuck with legit players, and gain an advantage so even if a server was made just for cheating, doesn't mean they'll all go there.
