I found that if you launch a game from Resurrection without Resurrection, it will change the default name.

Quote:Well, I recently when back to my old name. Every time I open resurrection it displays my name "2glock9s" when I want it to say "slosha69." Now, this really isn't that big of a deal but it's a hassle when I join a game forgetting to change the name. Is there a way to save it as "slosha69" because obviously saves "2glock9s" as my name somewhere.

Thx in advance.

I've searched, but I can't find anything that might be it. I've looked at all the files in the Resurrection folder, and looked through anything in the Renegade folder that could be related to Resurrection :\
