One of my EE professors is actually a registered sex offender. It's pretty bizzare. You can go on that Family Watchdog site type in his name and see him in a mugshot and then go to the Bradley homepage and see him smiling in his office full of balloons.

He's a pretty nice guy although a bit elitist. He tends to think students are very dumb.

Probably because he is one of many, many people on that list who don't belong there. Some of the rules for what makes you a "sex offender" in this country are totally fucked.

Also, I couldn't find 'pedo bear' on the list ... wtf?

That could certainly be true. I wish I could ask someone about it. I want to know because I have such a hunch it's something like what you mentioned. Unintentional or some kind of skewed law or something. I would never ask him though because I'm sure it's hard enough.

There's a guy that molested A FUCKIN FIVE YEAR OLD GIRL IN MY TOWN. FUCKING SICK. There are many more occasions with 7 and 8 year olds and girls in their teens. Ugh what the fuck.

I personally think that if people have to register as a sex offender one of the pieces of info on that register is WHY they had to register in the first place....in other words list their crime. Or make it so you only get on it if you actually do a sex offence.
