Hey guys,

Could someone tell me please the w3d file name when you shoot with a laser gun against the wall?

Please help me

It's the same one the flamethrower leaves, meaning that if you replace the laser's scorch mark you will also modify the flametank's/flamethrower's scorch mark. Anyway, the file is scortch01.dds

He wants to change the model of the smoke/fire stuff which comes when you shoot with the laser. Not the burnmark..
