For those of you who don't know who the Blue Angels are off the top of your head... They are a elite group of pilots from the U.S. Navy. They do those crazy air shows with close formation barrel rolls and what not. I figure in the next thousand years or so they will prolly be flying an orca like craft.

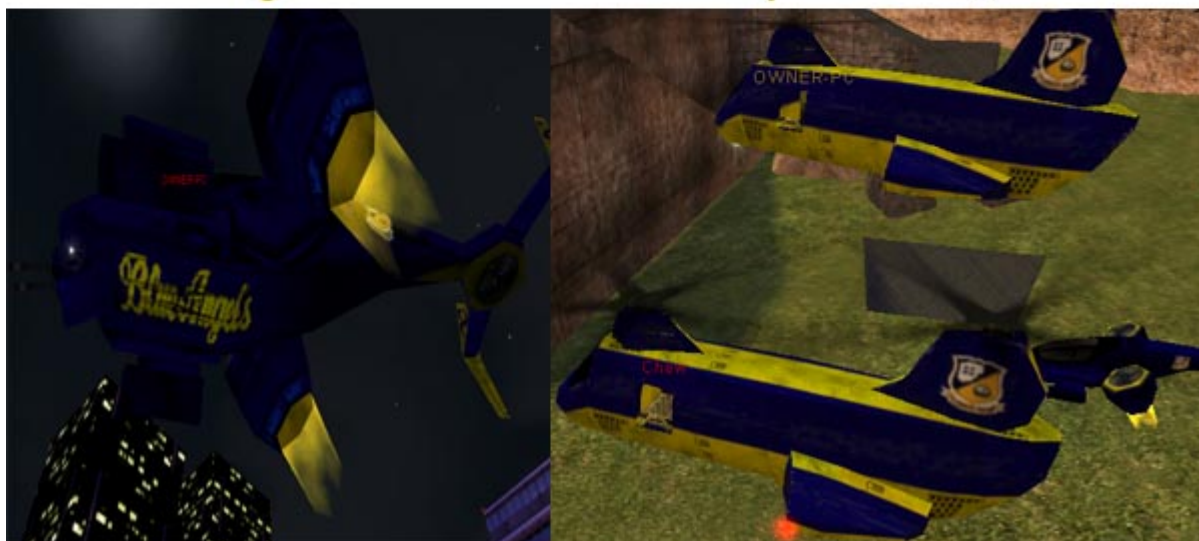

Hope you enjoy!

You can post them wherever you think people would enjoy them!

I just hope that my skins might be able to help people have a lil more fun while they play
