Hey everyone, i dunno if this would be hard or not, but i really like how in Di3HardNL's interiors/Dreganius edited interiors there is music playing in the backround of the buildings. Its kinda nice to have some music while your playing (i listen to my mp3's sometimes, but its funner to have the rene sounds too). I was just wondering if you could get music in all the other buildings in rene like AGT and HON and BAR and what not. Or if you could edit it and put your own music into it! Thanks for anything in advance

For instance, if the War Factory played a mp3 in the background that's named WF_music.mp3, then take a music file and rename it to WF_music.mp3, and overwrite the old one with this music file.

Just clarifying
