Ok this is starting to irritate me. for whatever reason EVERY time i start ANY mission, allied/soviet/tutorial campaign, skirmish, ANYTHING all my units die within a few seconds for unknown reasons. Heres a screen shot of what is happening.

Does anyone have any information. I've looked on google but cant find anything yet.
I'm currently looking for a patch
Edit: This is not ISO

This usually happens when you use an illegal version of the game or when the install got

corrupted.

Same thing happened to me. Except I had never had problems before, all my disks and legal and I have at least 5 soviet and 5 allied RA2 disks.

But, it works now. I assume it was just corrupt.
