Ideally, I'd rather you didn't cheat. Bar that, I'd rather you stop pretending like you didn't, or thinking people will eventually forget.

Yes; the man has turned over a new leaf. From leading a life of sin and r.g.h to walking the righteous path with God lighting his way. He surely is a changed man.

Let us all recite the Lord's Prayer.

Our Havoc
Who art in GDI base
Thy Nod will come
Thy pwnage be done
On field as it is on Walls Flying
Give us this day our daily credits
And forgive our trespasses
As we forgive Nod who trespasses against us
And lead us not into the Obelisks path
But deliver us from Stealth Blackhands

For the the server,
the Ref, WF and the Barracks are yours.
Now and for ever until time limit runs out

Amen

Which is even worse.

Zeratul wrote on Fri, 25 June 2010 16:07i have changed *which you will most likely call bs on*

Correct. Not that long ago you admitted you continue to cheat in other games that you haven't been busted in yet.

Guys, you are aware that Renegade doesn't exactly need more servers heh? On bad moments there are already more servers than players.

I'm sure you will have great success trying to get your share of the 30 some people who still play Renegade each night!

It's all good though. Soon enough you will have a split and cause yet another empty "communtiy".

You call those plugins? You're going to need at least three times as many modifications if anyone is going to take your server seriously!
