PRTSC first, open up MSpaint.
There you can change the size of the picture.

Hmm, i suggest download FRAPs and then take the picture, because when you take the picture. It
automaticlly saves to the FRAPs folder.

I couldn't get the screen shot to work so i made a youtube video and its uploading right now the
video will be called "C&C renegade online error" i will put the link when its done uploading thanks
for the help so far but i still need help

The 'Version Mismatch' in the title of all the games is a clue. You have the wrong version of Renegade to join those servers. Make sure you have installed the 1.037 patch.

I'd say reinstall completely following this guide:
http://www.renegadeforums.com/index.php?t=msg&th=24533&start=0&rid=4 882 .

well goztow if its not ur fault then how do u get core patch 2 to work i installed everything and i
unzipped it to renegade folder and then i go back then refreshed then opened it and it said "can't
find patch" how do u fix that then
