For some reason I don't understand, is when I complete the 1st level (scorpion hunter) renegade crashes.
Is it due to some skins conflicting with the level or is it due to me missing some componants?

Do you have Scripts 3.4.4 installed? If so, try removing it, sometimes it can cause issues with the campaign.

I have 2.9 since the last I installed 3.4.4 I sorta screwed up.

Shall I try 3.4.4?

Uninstall all scripts to play single player. Easiest way is to simply rename scripts2.dll -> scripts.dll .
