simple question

ages ago i had a server and loads of commands and now i dont remember how to make commands

so whats the website url that has all lua command help needs i know of this website as i used it before just dont remember the URL

I believe the support was over at DCOM productions: <http://www.dcomproductions.com/>
However, I'm not so sure that's still the case.

<http://osdn.unifiedtech.org/> Scroll down and look for "Command & Conquer Renegade: Lua Plugin"

It's more of an archive atm though, no one is using it.

I added the forums back, they are unsupported legacy forums now.
