#### TT 4.0 Test Event - Round #2

Hey all, we will be holding a mixed public and testers Renegade 4.0 Test Event coming Friday the 12th of August 2011:  
@ 3PM Amsterdam (CEST)  
@ 2PM London (BST)  
@ 9AM New York (EDT)  
(Check Other Time Zones)

#### General Information

We will be testing the server performance again (SSGM 4.0) and scout for general bugs that are currently either unknown or not yet fixed.  
Please do not report found bugs while ingame, instead i encourage everyone to register on <http://www.renegadeforums.com> and post in the Tiberian Technologies forums what you may find.  
Patch Features and Known Bugs :: Do not report any bugs listed here please.

When you do report a bug please be as specific as you can possibly be:  
What Operating System are you running?  
32 bit or 64 bit?  
What Renegade version are you using? Stock? 1.9(CP1)?, 2.3(CP2)?, 2.9.2? 3.4.4? 4.0?  
What map did the bug occur on?  
What was going on when the bug occurred?

#### What do you need?

This is a public and testers event which means anyone may join in the test.  
The server runs several custom made maps (listed below) so you must make sure you have them installed in your Renegade. Download this mappack and install it in your Data folder:  
[http://ren.game-maps.net/tt/maps/TT40\\_Test\\_Event\\_Maps\\_01.zip](http://ren.game-maps.net/tt/maps/TT40_Test_Event_Maps_01.zip)  
(Note: testers don't need to download any of the maps or mappack, the integrated resource manager will download maps on-the-fly)

Anything between say 06:00am GMT+8 (can be up that early if I set my alarm) and midnight GMT+8 would be ideal for me (anything beyond midnight is a bit late because if the test starts that late, its likely to finish later than I can stay up without collapsing)

of old age?

Depends, are you currently older or younger than 95?

The newmaps are the lifeblood of renegade now. The default ones have been played to death, if it weren't for the die hard fans this game would have died a long time ago.

I imagine the anti-cheat will bring people back or more likely to play the game, I know some friends of mine who quit playing because every is using cheats these days. For some reason when I buy a sniper on Field there's always a guy ruining my KD, luckily they'll get banned after a few hours most of the time.

Unless its in the map list at the start of the topic it won't be part of the event since non 4.0 players won't be able to get a copy.

It's a bit too short notice to add the map. Nobody will have it  
I'll add it for the Round 3 test event.

I downloaded adn installed the mappack, but when i try to join it comes up missing map.  
Is the server still up? this would indicate it is, but I can't join.
