I am trying to uninstall my TFD game for reasons I don't need to specify. Here is the error message:

"There was a problem starting
C:/Progra~2/COMMON~1/INSTAL~1/PROFES~1/RunTime/11/
00/Intel32/ctor.dll

The specified module could not be found."

I asked the question on jelly and someone said delete the folder. I deleted the folder and everything else that had to do with EA and C&C. The problem still persists.

I have no idea how to resolve it, try reinstalling TFD and then uninstalling it again.

A single quick search on Google told me that the problem is related to Install Shield, hence why you cant install OR uninstall. Try searching on Google for a solution, we are not your personal search engine.
