I've head a lot of bad things about it and most reviews have given it low scores.

I haven't played it though.

NFS hasn't been NFS since Underground 2. It just died after that.

IMO these games that came after Underground 2 where pretty decent aswell.

Most Wanted

Undercover

Hot Pursuit (I mean the new one obviously as the old are before U2)

Carbon I didn't really like and all the others where just lame (as NFS game that is).

/me gets the urge to dig up NFS2:SE from the game pile in his room (the game from 1997 )

From all the NFS games I have played almost each of them (either at a friend if not worth buying or still deciding or bought)

NFS 2 (Special Edition) - Own it  
Road Challenge - Own it  
Hot Pursuit 2 - Own it  
Underground 1 - Never bought it because I could lend it from a dude 1 door away  
Underground 2 - Same as above  
Most Wanted - Own it  
Carbon - Own it  
Pro Street - .....  
Undercover - Own it  
Shift - Tried it  
World - Own it  
Hot Pursuit (newest) - Own it
