Here's my re-skin of the secondary PIC in Dead-6 colours for the Sydney. Looks great in-game; enjoy!

Since Sakura defected to Nod leaving the Dead-6 team 1 man short, Sydney has been recruited in by GDI! She kicks ass.

thanks I really appreciate it! It's a simple recolour/copy-paste and nothing special but just wanted to get started on making skins again. The next one will be a vehicle!

It is more then simple copy and paste work you did here, it suits the style of other characters and because of this it looks even better. Good work!
