hey welcome to the renforums; could always use a new face every now and then.

For smaller files like skins, you can directly upload to the forum by attaching it with your post.

MAKE MORE SKINSZ.

Could someone convert this to rar or zip, I really don't feel like installing 7-Zip.

I upload .7z files all the time, are you sure that's the reason it gave for not accepting it?

Yet you installed the waste of space that is WinRAR instead, despite the fact 7-zip supports many more formats (including .rar), is much more efficient and doesn't have those bloody annoying 'OMFG REGISTAR WINRAR NAO!!!!!!' popups all the damn time.

WinRAR is able to open 7-zip as well so I don't see why he can't open it...

I don't know, I own WinRAR version 3.0 and it does not recognize the format.

@danpaul88:

I don't think it's a waste of space; had it forever.

Didn't feel like installing 7-Zip but guess I will.

Btw, I don't get that annoying register thing your talking about, maybe cause its an old version.

Bump: Does anyone happen to have this great skin? I have been looking all over for it and nothing. (Also the creator went missing)

It would be great if someone could dig it out of their Data Folder and re-upload the skin if they have it.
