Can I get an analysis of the crashdump?

This crashed somewhere deep in the audio code. I'm not sure why because we don't own any of that.

Was it on area54 server where you had the crash?

Because i noticed a few client crashes when playing this custom sound:

files.area54.eu/1minleft.mp3

Only maybe 3 of 25 clients crashed but no idea why, i disabled this sound.
