[View Forum Message](#) <> [Reply to Message](#)

This plugin adds the !rweapon (alias !rw) chat command, it'll remove the weapon the player is currently holding if it's not the pistol, c4 or a beacon.

To install place 'RemoveWeaponChatCommand.dll' in the FDS folder and add an entry for it under the [Plugins] section of ssgm.ini.

You can contact me under the nick 'iRANian' on renegadeforums.com.
