Based on the Core Patch 2 fixes. The following fixes are included:

- Harvester way paths are modified so they can no longer get stuck in the Tiberium field.
- Vehicle kill zones are added to prevent tanks from getting inside the infantry only area and getting stuck around that area on the hill.
- Infantry kill zones are added to prevent building hop.
- Vehicle kill zones are added to prevent vehicles from getting inside buildings.
- The Pedestal bounding box size has been increased slightly to prevent beacons placed on the Pedestal from not registering correctly (no visual changes).
