Is it better to stack them or place them side by side?

Stack. If you stack all 5 directly and they appear to be getting closer to the door entrance your doing it right.

Yeah stack them that way when I sneak into your base I can disarm them all at the same time instead of individually.

Love when people stack makes for amazingly quick disarms!

Side by side, lot easier if you use first person mode as well.

Yeah don't stack them. If the one on the bottom is disarmed or goes off the rest of them disappear. Whether or not its better to put them above the door or on the ground I am not sure. Does it do less damage above the door? Thats the question. I usually do above the door by the way.

It really depends upon which door you're asking about
