Please disregard this topic.

I have received a screenshot

If possible could someone supply a screenshot of his/her "My Games" section of Origin displaying all the entries related to C&C The Ultimate Collection?

Some dumbfuck at EA thinks that no older C&C game (pre-C&C 3) is available in Origin and I need to prove him otherwise (yes, I already named The Ultimate Collection).

Don't forget to blank out your nickname if you don't want anyone to know it!

Thanks in advance.
