Hi i know this is repeated question but just to make it clear to you to help me out, thnx so here's my question why does after i install renegade and then patch it to 1.037 using the patch i downloaded from westwood and when i play renegade it says please insert correct cd-rom, and then when i put the game.exe from crack folder it says the game.exe is linked to missing export

~Can anyone help me~

Thanks so much for the one who can answer me

The warez version of renegade came with a crack in the crack folder. The crack is specific to the version that is on that CD, and will not work with the patched version.

Buy the game and your problems are over
