Does anyone have any scripts builds older than scripts 1.3.1?

Specifically, there existed 1.3, 1.2, 1.1.1, 1.1, 1.0.1, 1.0, 1.0 RC2, 1.0 RC1, 0.99 Release Candidate, 0.98 RC, 0.97 Release Candidate, 0.96 Release Candidate, 0.95 Beta, 0.94 Beta, 0.93 Beta, 0.92 Beta, 0.91 Beta and 0.9 Beta.

I cant find any copies out there on the internet and they no longer exist on the original SourceForge download page.

I have 1.3.1 and all the versions after that but not the earlier versions and I want to complete my collection.

I'll have to check my hard drives when I get home. Those are some old scripts.

I might have 2.9.2 laying around still, I had all once but I assumed that they'd exist for ever on source forge.

Sadly the oldest I have is 1.4 (with source) and the newer one up from that I have is 2.9.2, I would also like to grab a copy of these older scripts.

One thing I thought of is that maybe some older mods would include older version of scripts but there's really no way to tell which version of scripts those mods came with.

The old builds no longer exist at that link so that doesn't help.

I may have most of what you're looking for, going to have to go through a stack of hard drives.

EDIT: Thought I had them but not anymore, oh well.

The two here are still downloadable(cp1/ss-cp1). Don't ask me the actual version numbers, I wasn't about to go past the first install button.

SS-CP 1.3 only one I could find on my discs.
