To westwood,

        Your team has released this Game CNC:Renegade. This games is perfectly and extremely very very nice to play. The problem is
the servers in gamespy are getting less and morever the ping is over 300ms. If your team hosts the best servers for each country, the game population will increase and more players will play renegade. I am from Singapore, everytime I join wow it lags like hell. Somemore the Starhub server is not in gamespy. Can your team solve this please....

Thank you

I think if you connect to WOL the ping is a lot better than gamespy. Gamespy is called lag city... they somehow, have a poor connection. If I were you, I would consider playing at WOL... instead of Gamespy Arcade.

There is no Westwood anymore, and there is no support form EA.

The pings have nothing to do with GameSpy or WOL themselves. The GameSpy pings are the actual pings between you and the server regardless of GameSpy, and the WOL pings are the pings from the server to Westwood. The only difference between a GameSpy server and a WOL server is a small setting in the config which determines which server its presence is advertised on.

the thing i hate about gamespy is the fact you tick the box that say display servers in my contry and it shows u all the bloody USA 1's

gayspy...come to WOL its better and ping is more stable for sumreason ...

If you change which country you are from it will show servers for that country, at one point I thought there were no servers at all, then unchecked the servers in my country box and poof! There were servers.

C4minerno i did

HOW COULD YOU! I'LL KILL YOU!!!!!!

Attacks C4miner

DIIIIIIIIEEEEEEEEEEEEEEE!!!!!!!!!!!

You killed a legend!!!

Me looks at dead WW on opposite side of room

WHYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYYY
YYYYYYYYYYYYYYYYYYYY!!!!!!!!!!11!!1!!

This has been a test of the Emergency Forums Dramatic System. Had this been a real case of Drama I would have run out of the forums yelling "Ahh were all gonna die!"... Thank you for your time.
