first off id like to say to anyone who asumingly like to offend and speak badly to others that if you dont have anything reasonable to say and dont want to say it in a CIVILIZED way (thats means no swearing, evil sarcasm or anything else thats not nice)

well now that i said that id like to know if anyone know where i can get a good tutorial (that means that it should be able to teach a idiot how to make it) on how i make working tank treads.

and once again i want a nice polite attitude in this threat.

Yeah, fuck you too. Did you expect no less when you sit there being a jackass when I haven't done a thing to you?

IF YOU DON'T WANT PEOPLE GIVING COMMENTS AND SAYING WHAT THEY THINK, THEN BY ALL MEANS; DO NOT ASK FOR ANY COMMENTS AT ALL. JUST TELL EVERYONE TO LIE AND TELL YOU EVERYTHING YOU'RE MAKING IS SUPER GOOD SO YOUR LITTLE EGO WILL BE INFLATED.

What kind of response did you think you were going to get when you wrote this? And what kind of attitude did you think you were going to get in a threat? Read through your post before you click submit. If you read through it and have the urge to slap yourself silly like we all do, then maybe don't post it at all, or re-write it until either 1. you are black and blue from slapping yourself silly

and give up, or 2. you don't start with an "You've all been asses outside of my thread, so instead, I'll just start off being an ass and hope no one else follows suit.

hey leave off guys, i know the post was kinda provocotive but people need to be rest assured in this community, let projects be completed, let people ask questions and just let things flow, and let people get on with their lives without any currupt.

Laeubi===> and the flame begin :rolleyes: :rolleyes:

The flame began in the first post when Cebt decided to dedicate half of his post to sarcastically insulting ACK and "anyone else who asumingly like to offend and speak badly to others".

CNCWarpathhey leave off guys, i know the post was kinda provocotive but people need to be rest assured in this community, let projects be completed, let people ask questions and just let things flow, and let people get on with their lifes without any currupt.

Thank you for adding to my collection of stupid comments.

Kinda provocotive? You don't think that that post, which was mostly just insulting ACK and others deserves a reply from ACK?

And how is ACK not letting projects be completed, or corrupting people's lives by responding to a sarcastically insulting thread directed at him? Come on, grow up already.

EnglandYou guys need to give people a break, the community is getting smaller and smaller cos when people ask for help and some insite, other people getting fuking stupid and chat shit - As Cebt said, if you dont have anything fukin constructive to say, STFU

This community is getting smaller and smaller because of people like YOU! You think it's alright for people to flame and insult others (mostly ACK), but as soon as that person makes the slightest reply, it's "STFU, you're the reason why people are leaving this community". Go back and read the first post dumbass, that whole thing, except for the last couple sentences were dedicated, and meant to sarcastically insult ACK.

And thanks for that hypocritical post, if you have nothing good to say, STFU!

Cebti dont mind comments i just want them in a nice attitude, and yes i know the thing i wrote may have been a bit provoking but i dont think anything else would help either.

You don't think anyone would have helped you if you didn't flame ACK? Lol...

Cebtand Aircraftkiller i dont wanna hear that crap about flaming and such cus everytime i defend others in a NICE attitude (ive never EVER been flaming you and you know that, when i say something i say it in a nice way) and even though i say things nicely you always tell me to shut the fuck up but still i dont flame you i think you should be glad i have such a great patience cus if i really get mad im not fun to argue with, but im not even gonna START flaming you cus its not worth it.

Is there a difference between saying "Excuse me, but you are a fucking retard ACK!" and "Hey bitch, you are the dumbest fucking retarded bitch ACK!". Just because you flame and insult him

nicely, doesn't make it not a flame...

Would you have replied with "You guys need to give people a break..." if ACK didn't respond to Cept's attack?

He had the idea after these people posted on the forum so ACK should be helping them, ACK is the person making hte commuity smaller beucase he's flaming everything now. Now one can't have free speak about someone mod or posting it beucase ACK always flames it!

What? Try proofreading before you submit something. If you can't understand it when you read it over, chances are we won't.
