It's 430K, too big. Not everyone has broadband you know, it would take nearly 2 minutes to load if your on dialup. If it's just a test, the real thing should be smaller in filesize.

John Shaft Jr.I gotta admit. That is kinda funny. But already have been down. i had beeter ones in my sig before.

You beter belive him...

His Matrix sig owned adn the man with unsteady hand holding his b33r...

As forthe size you could just reduce the quality and fps a little or if flash was allowed you could make it in to a flash movie and that would be way smaller...

L3f7y and DexxaBoy if you wanna animate a gif I say get Animation Shop Pro that comes with asc Paint Shop Pro or you could get Gif Animator 5.0 which Blazer showed me before...

Hope that helps .
