You just added that disclaimer.

"I'm sorry Mr Judge, I didn't know they were using my house as an illegal arms dealership."

Doesnt work, and I'ts not THAT hard to remove those responsible.

[EDIT]

Vegeta, the n00bstories irc server deals in warez.

Um... n00bstories.radiantx.net is a shell to a larger network. I can't control the other channels there. I keep my channel free of EA/WS warez discussion and that's the best I can do.

I think you're getting the network and the server confused. The n00bstories server has no control over what goes on on the IRC network.

I assume this is about warez channels and such? Wakeup sir. There are warez channels EVERYWHERE. On every IRC network, and every other network like AOL etc. Even assuming you called 1-800-PIR8 and convinced the FBI to spend their entire budget chasing down script kiddie warez bots, the warez channels would still exist, except now they would be hidden under names like #spongebob or something.

Warez is part of the internet. Not a condoned part, or a legal part, but it's just the nature of the beast. You won't stamp out warez any more than you can stamp out all the stupid porn emails I get everyday.

Ok let me deal with this.

RadiantX IRC Network is a service we provide, the network, the administrators, the ircops are not responsible for anything that passes through the network. IE - Warez

Sigh, I was told it had happed, but I never belived it. When I said to a friend of mine that I was going to start playing renegade again, he just smirked and said, "you know Renegade is just another CounterShite colony"

And its true. You my "friends" are the n00bs. Fresh from the CounterStrike playing fields. You've proven such by your actions in this post alone, not to mention others. That poor French guy is another example. He attempted to make a mod, and he was gunned down faster than a Iraqi.

Your pictures are vaguley amusing, but your attitudes are anything but. See you in hell ladies.

I usually try to limit my posts to those that can be expressed with humorous content. In this instance, you've struck a nerve.

You want to talk about ATTITUDES? How about the "holier-than-thou" attitude you are so gaily wielding about?

You blatantly accused Crimson of dealing in warez, and even after it was proven that she clearly is NOT, did you withdraw your statement? No, you went on to point the finger at the next guy. I, for one, would like to see you apologize to Crimson.

What did you expect to accomplish with this thread? You've been registered here for a week, and you start making false accusations towards the cornerstones of our community, with absolutely no foundation or merit. Do you want us all to suddenly kiss your ass and call it ice cream? Of COURSE you were ridiculed in this thread. If you had half a brain you would have seen it coming.

Other than by context, I don't understand your Counterstrike references, having never played the game. However, if you behaved in the same manner in the Counterstrike community as you are here, it's no wonder you've come back to Renegade. I'd be shocked if any community would tolerate you in their midst, since you seem to be so set on taking the role of policeman.

"That poor French guy" that you refer to as having been "gunned down," was not gunned until he had spammed the forum with dozens of posts about his mod, which was overinflated by 50 megabytes, and poor in quality. Much like this thread. My point is that here, again, you have made an accusation without knowing the facts to back it up. Clearly, you haven't learned anything.

My bottom line: You can stay, you can go, I don't really care either way. But, for your own good, you'd better re-examine your ways, before you lose that last friend you mentioned.

Ah, curiosity. It has retuned me to see what people have said. DJ, you are in fact correct, Crim did/does indeed deserve an apology. After England accepted resposibility for the server, I duely pm'd her. If she requires any further apology I will kindly oblige.

As for the rest, nothing much worth replying about. Just more spam shite.

You wanna talk about attitude? You contridictory piece of horse shit. For all you know, I may be an Iraqi, and in which case, I would take that as racism; a severe form of attitude.

Get the hell out of here, you're wanted just about as much as your opinions.
