need help with Renegade Modding, or programming?

come to http://www.renevo.com/faq/ and ask your question there, one of our very knowledgable staff will answer the questions that you post up there very swiftly and very accurately with any pertaining images, downloads, and instructions.

I really hope you guys use this to your full advantage, as it will easily become a searchable database of Renegade modding for one, and a great place to ask the pros who authored several key items in the Renegade Modding community.

Thanks again, and if you feel you are a leading person to ask on a certain subject in the FAQ, contact me at Dante@RenEvo.com about becoming an answer guy.

Thanks alot guys, we are not dead, just still evolving.
