Blkwasp and I are having major issues logging in.......

it keeps saying requesting server list and then operation timed out and we cannot connect.

Anyone out there having this problem?

any help to get us back up would be greatfully appreciated ASAP!

Thanks

It's a result of PKG files such as mods. Everyone gets it but depending on how mank PKG files and there sizes will depend how long the delay is. Just visit the Technical forum you'll see many people have this problem. Only way to reduce the time is to remove any PKG files you don't need.
