WOL seems to be having some problems tonight, twice ive seen all BCServ servers and The Pits d/c from WOL (Host: Quitting due to Westwood Online connection loss.), the first time i and my 2 WOL bots got d/ced as well.

I havnt seen any other problems with WOL besides the random d/ces every few hours or so, hopefully this wont last long.

For the past couple of days I simply couldn't connect. I always got "Operation Timed Out". This happened to me once before, and I think I just left it alone for awhile, then it worked.
