If you want to fly w/o buyin an orca in Walls flying, heres wat to do. put on extras code for GDI an buy a pickup truck. Then Go as far back from the ramp on the WF and floor it. if you do it right you can hit the wall and flip upside down. This is useful 2 ways
1) It crushes and/or blows up any infantry sneaking behind the WF and
2) Its a quick sneaky, and cheap way to kill a flamer or apc thats hidin behind the WF (just cover the top of the truck w/ proxie mines, and ya should land righ6t on top of the enemy vehicle.!
