And just in case you think we're a small newbie clan, we currently have 52 members, about 8 of
which are in the Renegade division, but more that can play if you want to get a big match
together.

We do
BF 1942, BF 1942 R2R, BF 1942 DC and we all have EoD.

So when I put BF 1942 it was for it all

Most of our games are on TWL. I am not sure where our Renegade resides. Since it is hard to find a supporting ladder site.

We don't play LT anymore, due to a clan match we had back in the DOM days when we were cheated.

Ehrm*Sloppy steps up onto podeum*

First of all,Many people have Left LT And many have joined.The LT You played maybe a month ago was a different clan.I Can say the only Person who ever cheated in LT was LTSpade,We kicked him a long time ago.LT Is actually one of the only clans that play fair now.Other clans Jump walls and gay crap like that. Also,There is pretty much no way you can cheat on most westwood maps,Except base to base maps. LT Dosent like to play islands and were not stuped enough to

do gay base to base things because we could be banned from clan wars.

LT has been screwed by other clans many times.Its a new month and a fresh ladder.LT has been reformed and Plays fair,People who cheat in LT Are dealt with accordingly,I Have been in LT sence it was made and I have seen my share of idiots join and leave.

The clan never stays the same,The only people who will never be kicked from LT is HomeyG and Kirovy.So when you come around and say LT has cheated,That was a different LT,We play clean.If it makes you feel any better,You can host.
