Remember, it's a mod or a modification, not a MOD.

Actually, it would matter. "Mod" is not an acronymn, it is short for "Modification". Saying "MOD" either means you're trying to give that word emphasis("IT'S MY MOD!!!"), or you think it's an acronymn (or you think it deserves capatalization like an acronymn) like: "NASA", "BMW" or "SOCOM".

Headhunter, you will have to specify what kind of new scripts that you are talking about, as our current scripting system is, by agreement with the authro, open source, sharing your ideas is just the first step.
