I have the file if you have the hosting. I'd rather upload to a server where everyone can download it rather than spending an hour sending to one person. Even free hosting with 50MB or so that is fast and has a lot of bandwidth. Let me know and i'll upload it, on my connection it should take around 15 minutes or less to upload. I tried the ModX but it seems to not allow files that big, I spent 20 minutes uploading and it failed.
