I use gamespyarcade to play multiplayer but when i pick a server to play on and it opens renegade it just brings me to the main menu and from there i cant play on that server...what do i heve to do???

Toilet Stalker

Step one, change your online name to something a little less offensive, like, say..........

Seat licker.

:rolleyes:

You find that offensive?

Anyway, go play on WOL.

Try_leeYou find that offensive?

Anyway, go play on WOL.

WOL is DOWN!
