Does anyone know the filename of the mammoth tank rockets sound ?
I've check through quite a few of the wavs from always.dat but havent found it yet.

Thx

!!OMG!! I can finally play renegade without my volume muted or speakers off. Thats how much
they were pissen me off. Shootin @ funny looking pixels on the walls & ground & shit.

Thank You npsmith82

Edit:
just incase anyone else is annoyed, link to mammy sound at only 15% volume + few others I
changed/merged. Zip File

I told you the extraction didn't work properly, (three to four times actually)

Don't know why, you can do it yourself (xcc mixer) i'm still extracting missing textures to this day.

As far as i know, the best & quickest way to do it is to select all one type of file eg. .dds and extract to a simalar or same type ie. jpeg to the data directory (using photo shop to convert back when needed)
