Okay all, by now most of you know JTeKSvr01, now moved to JTeKSvR02 currently being hosted on 2.4GHz 1024DDR 1Mupload Optimum Online cable. Admined by BR.NET Got the website up a day ago. http://jteksnipe.zoph.org, however I reallllly need moderators. Normally I let people ask me. Always the trust issue. I know people that would kick players better than them, they will remain nameless. If you want to mod JTeKSvR02 E-Mail my main account at Nexus2151@aol.com I'll need your WOL name how often you play on snipe servers and eventually your IP, if I don't have it in my logs.

Also a notice to all my admins, the IRC channel is #jteksnipe now, I had to switch because Services are down and I lost OP in #jtekbot so until services are back up the channel is #jteksnipe and it's +m for protection.
