Apparently this is the truth. I've heard it time and time again from many...many of the Republicans and pro-war people on this board. Basically...this is my way of saying I'm done. Some of you have proved incapable of following conversations (get lost on which topic we're discussing, accusing everything I say as just a teenager rambling)

The biggest thing that bugs me is that we're being persecuted just for wanting peace instead of war. The French I hear being called racial slurs and blatant lies being spread about them. America supported HITLER as much...if not more than France is supporting Saddam. Earlier today...a man was arrested for wearing a t-shirt that said something like "make peace, not war."

ARRESTED...that is blatantly un-American. We have every right to speak our minds...and if using our rights is "taking our rights for granted"...Then I see America is dying. We are but our own destruction...and by persecuting people because they question something that doesn't seem right...we are just continuing on that path

I don't expect this to change anyone's opinions...if anything...I expect it to make certain people hate me more. But fortunately, as I said above, I'm done with this political debate. You are unwilling to listen to me due to my age...but let me ask you this...if Einstein was only 18 when he created the E=mc<sup>2</sup> formula...would you have listened? What about Tesla. I'm not comparing myself to Tesla or Einstein by any means...but there very well could be an 18 year old out there that has an IQ of 200...and if he was against the war...would you listen?

Do you have any idea how transparent you are ? Let me show you.

Hit, run....Hit,...run, Hit, run....Hit,...run, Hit, run....Hit,...run

Ok I think you guys are sadistic pieces of shit but I'm done I give up. (30 mins later) Ok you guys are thick-headed and don't know what the fuck your talking about but that's cool cause I'm outa here. (1.27hrs later) Man why can't you people see all these FACTS I've been presenting BUT THATS OK CAUSE IM LEAVING.....(Later that night)Ok you bad bad republicans I'm really leaving this time and here's why but don't write back cause I'm leaving this time...for real you guys...I'm leaving...

Edit : BTW High IQ doesn't give anyone the \*magical ability\* to know shit they have NO accurate knowledge on and you obviously are grossly misinformed.

All that, and STILL nothing to back up his points. Wonder why no one listens to you?

Don't flatter yourself. I doubt you have a high I.Q.. If you did, you would be able to rebutt the pro-war counters, with more than guitarist quotes.

Duke of Nukes Earlier today...a man was arrested for wearing a t-shirt that said something like "make peace, not war." ARRESTED...that is blatantly un-American further proof that you are not quite up to date and informed of the current situation... this was nearly 2 weeks ago. he was arrested in a mall for trespassing because SECURITY GUARDS asked him to remove his shirt. the police had no choice but to execute the request of the security guards as it was private property and the man refused to leave. the mall has since dropped all charges and apologized for a situation that should never have taken place.

Duke of NukesAmerica supported HITLER as much...if not more than France is supporting Saddam.

Can you back that up please? I don't recall America actively trying to be Hitler's best friend a few months before World War 2 started. France has tried that with Saddam.

I already Owned Duke on this one. He is trying to make it look like the government supported Hitler because some powerful business' had given some support to him.

Ford Motor Company is not the US government.
