Please read and pay attention to #7. This is new and I will enforce it.

FoDSvr02 Snipe Only Rules are:

1. Snipers only. If it doesn't have a scope, then it is not a sniper.
2. No vehicles what-so-ever!
3. No beacon, no base killing and no c4 or mines..
4. No spawn/PT killing
5. Refills are allowed after a fire fight. We will not kick for this unless it is abused. So don't be a n00b and refill every time your get a boo-boo.
6. No attitudes. Having a bad attitude takes away from the fun. So check them at the door, or our mods will show you the door. So watch your language.
7. If you are suspected of cheating on FoDSvr02, you will be asked to provide 2 screen shots(SS). One from the first person view and one from the third person view. The SS will contain the entire list of players in that game, your connection info(fps, kbits/s etc.) and have players from both sides in the frame and aiming at the head of the enemy. Failer to comply will result in getting kicked or even banned from the server. You will then display the SS at <http://www.n00bstories.com> image gallery. If you don't know how to get the FPS display you hit <f8> then type "fps" then hit <ENTER> All players are to abide by this rule, even game moderators. If you, as a player, suspect a player of using a cheat, you can request a SS also. If one is not provided by the suspect notify me(K9), Snipesimo, Crimson, Foenixz, tdraptor or Boink8

Hey bitch! This is to help prevent that from happening. BTW I had many complaints on your name. It wasn't just me going off an a tangent. This is how I am going to remedy people accusing others of using the "Big Head" and maybe some other cheats.

Matt, come to my house and say that. I would be the one to fuck you up. If you read, I have had complaints about the name you used. I acted on it as precautionary measures. I also didn't accuse you in public now did I?

Sit back and think how many others got kicked/banned from good servers because they had a good game. Yes you are good. Also, you rarely play on my server so the name wasn't familiar.

People made complaints, I acted. That is how this system we have right now is working. The screen shot request may help in that. What happened to you(non-cheater) and a person I suspect is using a cheat is why I came up with this. I hope other servers adopt this policy also before they enable a ban.

Your fake "homey" destruction of the English language does nothing except make you look more foolish than ever. If you aren't a cheater, than prove it, and stop complaining, or find a gayspy server to hang out with pmpn4life on.

Ok, so explain this a bit more... if i cheat, and get 100+ kills ingame.. then WHY, WHY havernt i been banned from ANY servers? Why can I still be killed? Your petty vendeta against me proves nothing. I can do more then you 100 times then you can do to me. I have 2 names registerd, Xtrm2Matt and UKsXtrmX (i proved this to aprime last night.. although he didnt see the SS itook),

and a million IPs. It doesnt take 2 seconds to register a new nick, and 1 minute-2 minutes to get a new IP. As far as Renegade Serials go, i have over 200 legit serials, so getting EA to try and ban that also does shit.

There is no way you can stop any cheaters. I don't cheat, if i did, you wouldnt be able to stop me either way.

KIRBY098

I have just proved in them 2 screenshots. Want me to take a SS of my /Data/ dir too?

..wonder how long this topic will go on for :rolleyes:

Matt, I don't have any "vendeta" against you. Also not everyone that plays Renegade is a "1337 haxx0r" like you. :rolleyes: So bans are effective for 90% of the players banned.

This is how a cheater acts. you aren't proving your case, just backing into a corner.

Stop the idiotic threats, because:

- A. You can't carry them out anyways
- B. umm, it's a video game
- C. How are you, a preadolescent, going to beat up a thirty one year old firefighter?
- D. UMM, IT'S A VIDEO GAME

Just comply with the request, prove your case, and continue playing. Don't act like an ass in public.

Matt.

Is this one of your nick? Itsnip0r That was the name that your IP resembled according to MsgtPain's database. From the way you are going off I thought it may have been. Then I thought about it... Aprime didn't give you the whole story did he?

Here it is:

Quote:Itsnip0r 103 kills and 13 deaths. 9702 points and MVP in one game. I know the clan LT's history of cheating. I am not sure if he is with them, but he is banned. IP 80.5.**.** (Avg 103 kills a game) Using Pains database I found a possible match.

Performed an IP Search on 80.5.**.**
UKsXtrmX 80.5.**.**

But like they say, the database isn't a 100% match either. I only banned the IP I got, and the name that was on my server Itsnip0r. Just in case.

I will drop it from here. I think some people misunderstood my post in the Server Owners Forum. Again the reason why I came up with this.

lol I think you should respect the Fodsvr way of recognising cheaters, I think it is a great idea- I don't see why

Quote:Ever accuse me of cheating again ill fuck you up you get me?

and

Quote:Hey bitch

were relevent, if you knew you weren't cheating. Servers banning innocent players has become a huge problem recently, as more unexperienced players are buying the game, then being challenged by more experienced players, like yourself.

Newbies to any game are bound to whinge if they are beaten, and in Renegade, they know the best way to tick them off is to accuse them of cheating. So don't take it personally, prove that you weren't cheating, then leave it at that.

Guys lay off. Matt doesnt cheat.

Anyways Ive already founds flaws in your anti cheat system.

All I have to do is alt tab and close my aimbot/clickbot (assuming I have one), or alt tab and simply delete/move my skins/mod files for big head. It does NOT take the whole game to do, it takes me about 10 seconds.

Also so what, if someone does not want to be bothered by going through the trouble of using the whole SS thing then they are banned?

Ermm....all I have to say is w0w!

Here someone spends there money to put up a server so that people can play this game. Then tries to moderate it the best way possible, and all you can do is bitch and moan? Give me a break!!! Just follow the server rules, or find another server to play on. Is it really that hard to do?

You made your point, however the way you wnet about it was rather childish. IF I were the server owner I would leave your ass banned just for you being such a prick about it. You say that people automatically think you are a cheater because you were once with WSE....well I didn't know that untill you said it. However, with the attitude you are having, you deserver what you get.

You seem to have all the answers on how to avoid cheats. You even go to the extent to publicaly tell others how to avoid detection. :rolleyes:

Again, most of the cheaters didn't know how to avoid it until you publicaly announced it here. :rolleyes:

Since you are this bundle of cheat information. Why not try and help find a way to detect them.

umm if you remove skin files.. you ahve to restart renegade before they take effect.... or load a new level i think.. they wont just magically change in game
