If you get threatened to be DoSed or Hacked, you don't normally think it will happen, sometimes it might, and this just looks like one of these times

However, i find this funny.

With all do respect this isn't concrete proof and therefore it isn't right to blacklist the guy. Maybe there was a C4 in the area and it blew around the same time, maybe someone else was shooting you and you didn't notice, a bunch of things COULD have happened. I'm not saying he's not a cheater, just that it would be better if you saw him blowing up a harvester with an assault rifle or something.

That made me laugh....

But ya it gets kinda annoying when an entire APC rush gets taken out on City Flying by just one Flamethrower. It happened once so far and I hope not ever again...
