I used to be dragon1619 a LONG time ago, but then through about 10 minutes of coming up with nothing I decided on Slicer23, wellmy account messed up so I needed to make a new one which I promptly named to avenge my old account. That is how Slicer238 was created.

my name used to be mutt3 in older C&C games, but i decided to change that so i wanted to put something with 310 cause its my favorite 3 digit number (i used as my initials for other games) and i wanted to add a letter in the front so other people could call me that one letter and after a while i came up with "z" because i thought it looks good added to 310 and people could call me z so...

haha, me? Ever read the book Ender's Game, by Orson Scott Card? (It won both Hogo & Nebula Awards as did the Sequeal speaker for the Dead.)

Ender means one in a million, or something rarely found.
Gate represents a passage way or porthole.

So I guess I'm a rare opening for my team.

However, for the opposing force...
... I'll settle being the gateway to their end.

Sk8rRIMuk:

I used to use an rpg make called RM2K and during this period I designed a site called "rm2k island", now it was that good but thats not the point. I decided rather than calling myself the webmaster I would call myself the "RM2K Island Master", thus the shortened version "RIM" makes up the centre of my name.

The "Sk8r" section origanted from me being a skater and the fact that the WOL names needed to be short.

Finally the "uk" section came a few weeks into playing renegade, my friend figured out my password, to WOL and I was thinking of something to change, looking at the rankings I saw a lot of people added initials of countrys into there name thus my country was inhereted to my name as "uk" standing for 'united kingdom'.

So that's what makes up "Sk8rRIMuk" .

I got my first name "gunrun01" from the picture of gunner on the wol sign up page run due to *um forgot and the 01 part to get it to sound good. later i changed I got more like gunrun02 gunrun03 gunrun04 because i was trying to make a clan like the +HS+ because it was a popular clan at the time with the snipe01hs and other crap. later on i decided to make yet an other name a original gunrun name called "xxxgunrun" then i got my clan idea again and made "xxgunrun"(AIM user name) and xgunrun. well yet again i wanted a "original" name so i made Newgunrun(this spined of to oldgunrun the n00b cheater) which i have used for the 2nd year of ren. I got TheGunrun so i

could be reconized for u folks.(1year and still win'n)

well my SN for ren is fosaken, since I was trying to get forsaken but it was taken and I don't like a lot of digits in my name, and somehow I was trying different spellings of forsaken and one time left out the r by accident and got fosaken, so I was like what the hell looks alright. The good thing about it is most people now call me "fo" or "fos" for short, and "fos" sounds better than "for"

Kamdaki1 SN came from one of the names of the gaurdians on Tenchi Muyo (one of ayekas wooden gaurd dudes, azaka and kamdaki), and it was already taken so I put a 1 and looks just as good. Also I was able to get azaka before anyone else

But, since I too was once a n00b, i thought that ladder would never restart. So I changed it and put a "K" in it, and it became JiggakoZz.

From there more of my friends started to play, and we were all Jiggaz:

Jiggafes
Jiggamac
Jiggaroxx
Jigganate
Jiggalex

Jiggaurin

Now its just me and fes, so I renamed myself Numb3r0ne.

My name originated from my good IM buddy UmbralX. At first I didn't know what Umbral meant, and he told me it was Latin for "shadow". So I said what the hell, and dubbed myself Umbral927 in WOL. The 927 is totally random. I eventually started to look up other Latin words, and found Flareus, which meant "fire". So...

Umbral = shadow
Flare = flame, fire
Dela = of

Umbral_DelaFlare = "shadow of the flame"

I'm thinking of changing the name to Flareus_Umbral, or "flame of shadows". Both names sound good though.

hmm, well, as one person already asked me in a private message. At first glance, you may think that I created it because I lost someone (grieve) in '92. That probably would have made more sense, but its actually quite simple. Griever is a character name of a Summon in Final Fantasy VIII (, I just slapped the 92 on the end cause it sort of a a catchy sound (i think...)

Well there you have it, the story behind the name Griever92
