I am finally releasing C&C Divergence.

Theatre: Small Temperate Valley
Time: 00:00
Description: A Standard C&C mode map. Both bases have a large wall, which is assessable via ladders. Each base has only one way in, and one way out. A riser on the western side will allow you to access the large rock in the center. This map is very dark, with some large clumps of

Screenies:

  Description: Red skys at night, sailors delight :twisted:

  Description: Ion Cannon Charge

  Description: Nuke Blast

I could host it. Got MSN?

Nevermind, host's down.

Moderator Edit: Quoting your own post, to say something you could have edited into your original post, is spam. Don't do it again.

Looks good, I'll have to try it out when you find a host for the file. You could try Dante's Mod

Exchange though I'm not sure if it is fully working again yet. Other than that you could ask Laeubi to host is as he hosted other peoples maps before.

http://www.laeubi.de < what was wrong with that link for you to remove it?

Yaaa, that the only bad thing about my site, and my parents won't let me pay for hosting, so I am using one of my old coms as the webhost, We have DSL, Good at download, bad at upload   I should see what internet service is provided in my area, last I checked DSL was still the best in my area   I heard my school is getting Lan T1, is it better than DSL at uploading? And if so, how much better?

Subject: C&C Divergence Release
Posted by flyingfox on Thu, 16 Oct 2003 06:01:21 GMT

Considering T1 is a faster connection / bigger costing connection, generally speaking, then yeah I'd say it was better at uploading. How much better? I dont know. Whats this topic about? Oh yes, this guys map. GJ.
