It is if you have photoshop or paintshop pro and the .dds plugin. You can extract the  
pct\_master.dds files from the always.dat and use them as templates-

agd\_pct\_master.dds

atr\_pct\_master.dds

bar\_...

com\_...

obl\_...

pow\_...

ref\_...

wep\_...

Edit them and put your own pictures there, then save them as .dds files.
