I decided to dick around today, and recode the ladder for WOL, it is just a new UI and working search engine.

Its still a bit under development, but any thoughts would be much appreciated.

There are some "problematic" players, i do realise this, but i am working on a way to get past the errors now, you won't notice, unless you are them, because they are way up in the 18000 range.

hope you like it, and more upgrades/options coming!
