ive seen the comm center in somerhino's maps and a couple of others...

Where do u get the g-max file for that building...or do you have to mod the SP one?

Yeah the comm centres are in the BUILDINGS.zip file, but there the singleplayer versions. ACK modifed the singleplayer ones by removing most of the underground and things to make a single leveled multiplayer building. I think you can get it from renegade realm.

Yeah I think I DL'd em from Renegade Realm. But I beleive they do not have PT's and they have many modeling errors.
