Only affects gsa, if a person with these chars [or] in the very first character of the name, brenbot can't add them as a temp mod, also kicking them does not work, and gives the error message: "Can not kick server owner/mod"

It works, but you have to use the non-symbol part of their name. The partial name search doesn't have to match the first characters.

For [EoE]Crimsson, you can type

EoE, Crim, son, Crimss, etc... they would all work as long as no one else matched it too.

Not a solution, a workaround.
