Hi, the brenbot is working fine , but the command !nextmap gives the following message:
Nextmap: unknown..

How can i let the bot read the map cycle?

I'm using the standard cycle without: non flying city, non flying walls & glacier.

Nextmap: unknown..

How can i let the bot read the map cycle?

I'm using the standard cycle without: non flying city, non flying walls & glacier.

Check this line in BRenBot.cfg:

"FDSConfigFile = C:\PathToYour\FDS\GameConfigFile.ini"

ah how stupid i used /Server/Data instead of /Server/data

Tnx for the help!
