Hi there!

set the Fontcolor and the activated (if cursor is above) Fontcolor?

You may be trying to hard to modify so many things there E!...
I do suggest u find that out, but MOST likely to be unssucessful...

Ive been trying to figure this out for a while now and have been unsuccessful, one reason is I think that its hard-coded into the engine itself and that we would need source code to change its variable.

There could be a possibility that it is a text file or a W3D file located in always.dat but I have yet failed to find such a file, good luck.
