Are you capable of getting rid of a website? I'm asking you this because there is a huge cheat site out there giving out all this stuff.. PM me for more information, i want to get this site removed. I'm not going to dispose anymore info to the public area, so please PM, Blazer, mac or crimson, whoever.

If it's someone else's site, not much can be done besides censoring any links to it.

You could make Renguard modify the hosts.txt file, so supercheezt.com points to 127.0.0.1
